

# cFire

## Visual Diamond Shape

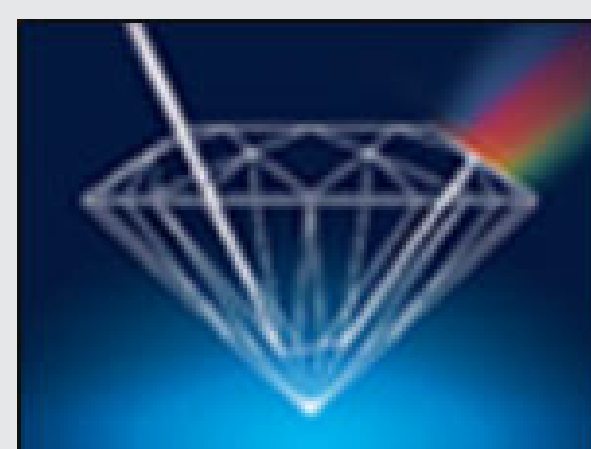

## *A World Of Light Performance*

### Brilliance

Describes the refraction and reflection of the light that flashes as the diamond, observer, or lighting moves.

### Fire

Describes the fiery, rainbow color flashes emanating from the diamond. This is white light broken-up into the colors of the spectrum.

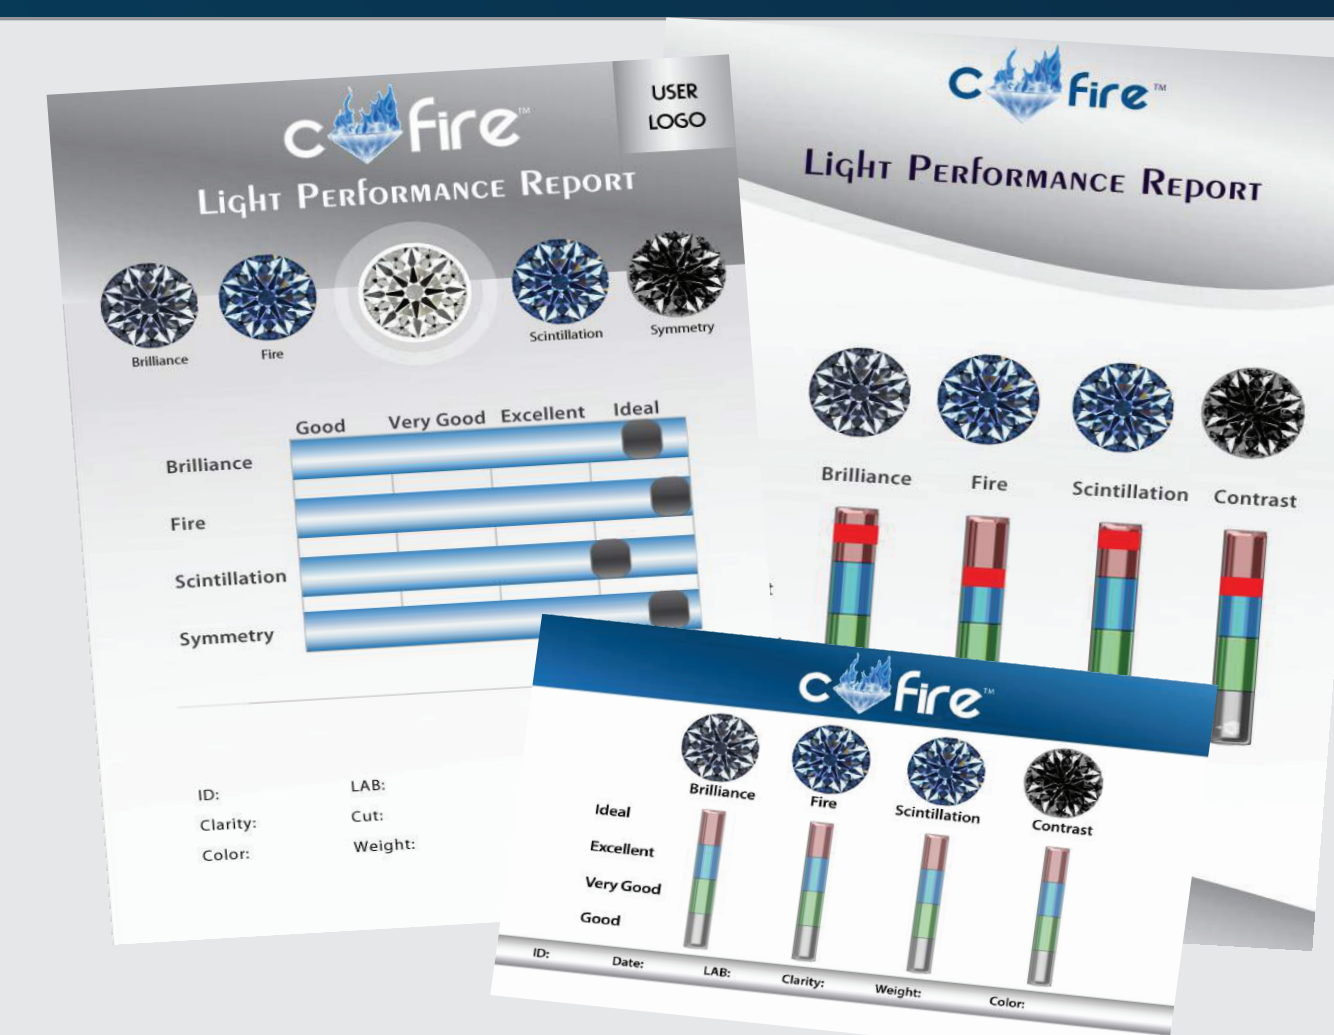

### Brilliance

Describes the refraction and reflection of the light that flashes as the diamond, observer, or lighting moves.

## Certificates & Cards

Elevate your diamond's liveliness and uniqueness upon other diamonds with a special certificate.
