

Scanox Planner

High Resolution Planning System

Scanox Planner offers the leading solution to measuring, planning and grading of diamonds, from the rough stone up to the polished diamond. A dual laser mapping that provides optimal mapping of holes and grooves in the rough diamond.

PRODUCT HIGHLIGHTS:

HD Colored Camera

HD digital camera for accurate identification of even the smallest inclusions.

Inclusion

Revolutionary inclusion feature enables calculating positions and grading clarity as viewed by the user.

Dual Laser Scanner

Precise laser scanner for optimal mapping of holes and grooves.

GIA[®] FACETWARE[™]

Rough planning software assists in achievement of the optimal cut-grade with accordance to GIA[®] lab's standards.
