

# UNOMarker

## Single-Lens Laser Marking System

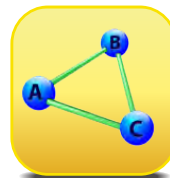

The UNOMarker HD is the ultimate solution for rough diamonds' planning & marking in minimum time and maximum accuracy. The system contains HD technology that allows High Resolution mapping of the inclusion mapping and the rough surface.

### PRODUCT HIGHLIGHTS:

#### Laser Marking

Most accurate marking laser line for all facets, including table, upper and lower girdle, crown and pavilion facets and all tops.

#### Advanced Algorithms

Allow very fast planning stage and marking process.

#### Laser Scanner

Precise laser scanner for optimal mapping of holes and grooves.

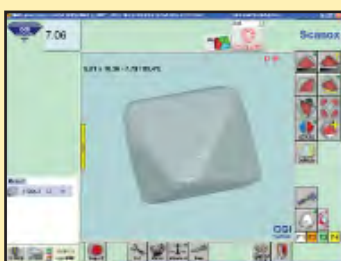

#### Inclusion

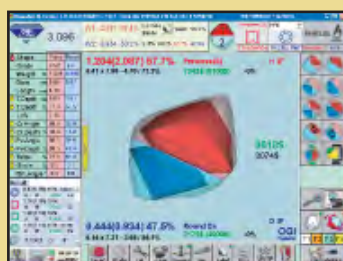

Revolutionary inclusion feature enables calculating positions and grading clarity as viewed by the user.

### PLANNING AND MARKING PROCESS:

#### Rough 3D Model

#### Multiple Stone Planning

#### Advanced Marking Process
