

# ScanoxCAD PRO

## High resolution Diamond Grading

ScanoxCAD PRO uses a high resolution digital camera for the 3D geometrical measurements of the diamond, with specially designed interchangeable optical unique lenses (up to 28 mm) for various diamond sizes and a unique lighting module for highly precise scanning. The device supports full OGI software grading package like Firetrace, Symmetry leakage, H&A and re-cut.

### TECH SPEC

MULTI-LENSES: 3 Choose Lens Size

ACCURACY: Linear 0.01mm, angular 0.1

VOLTAGE: 12 volt 110-220 AUTO SWITCHING

MEASURING SIZE: a choice of lenses suitable for different diamond sizes, ranging up to 28 mm

Dimensions: L:41x W10 x H 12cm

WEIGHT: 6kg
